THE VOICE FOR CONNECTIVITY

NEXT GEN SCHOLARS PROGRAM

$ 3/4 tuition

FIBER OPTICS. INTERNET. COMMUNICATIONS. NETWORKS. TECHNOLOGY.

Do you find these things interesting? Do you wonder how it all works? Are you interested in learning how to design and build modern communication networks? If so, then a career in Telecommunications could be a good fit for you.

Iowa Communications Alliance and Des Moines Area Community College have a great partnership to help you on your way to that career – The Next Gen Scholars Program.

Upon selection, the Iowa Communications Alliance, the sponsoring ICA member telecommunications company, DMACC, and the student will split the cost of tuition of the DMACC Network Technology – Telecom/Data Communications Program into quarters. In addition to the financial assistance, the student may also receive mentoring or internship opportunities, along with the potential to be interviewed and hired by the sponsoring telecommunications company upon graduation.

For more information about the Next Gen Scholar Program, visit www.iacommunicationsall.org/scholarships or contact ICA at 515-867-2091 or melissa@iacommunicationsall.com.

For more information about DMACC's Network Technology – Telecom/Data Communications Program visit www.dmacc.edu/west/telecom.
